

## Metropolitan **VM** Users Association, Inc.

The Metropolitan VM Users Association invites everyone in the VM community to join us for our quarterly meetings to share information, education and camaraderie.

We have speakers from vendors with latest updates to software and hardware, technical answers to your questions, user experiences, installation tales and how-to notes.

Hot topics such as Linux guest systems, networking, performance tuning and VM product updates are presented. A question and Answer session involves everyone in whatever your topic or quandary might be. Our generous vendors contribute goodies for a “give-away” at each meeting (books, bears and T-shirts, Oh My)!!

Meetings dates, agendas and directions are on our website. Our usual meeting place is in New York City above Penn Station. Or you can reach our smiling president, Bill “Howdy” Munson at 917-339-5298 for any extra information.

***Come to our next meeting and check us out!***
